Profile

Experienced developer and a strong business development professional with a **Master's Degree** focused in **Computer Applications** from Sardar Patel Institute of Technology.

I am a logical thinker and like solving problems by leveraging technology. I have worked on and delivered ETL based solutions, .NET Web application and Microservices developed with .NET framework.

Being an autodidact, I'm always inquisitive about new technology and trying out various pet projects. Never shying away from opportunities in different technical landscapes.

Professional Experience

Barclays

07/2017 – present | Pune, India

Developer

- .Net developer for Barclays Partner Finances, developing **microservices** using .Net Core WebAPI.
- Developed and delivered **ETL Solution** for Customer Data and Regulatory projects in Ab Initio.
- Developed and delivered **Web Application** in ASP.NET MVC/SQL Server and SSIS for FATCA/CRS Report generation.
- Engaged in various other compliance activities such as AccessControlList feeds, Data remediation and data archival & housekeeping etc.
- Engaged in **change management** and support in various phases of application lifecycle.
- Technologies worked on : .Net Core, Web API, Ab Initio, SQL Server Integration services, SQL Server, ASP.NET, Powershell scripting, UNIX shell scripting, ORACLE.

Barclays

01/2017 – 07/2017 | Pune, India

Intern Analyst

- Intern in Legal run the bank team where I provided support for applications used by the Legal team.
- As an intern I developed 2 projects that helped the Legal RTB team perform their support duties efficiently.
 - **One-click Health Check of all services/Applications**
Created an executable using C# & Selenium which when executed, all the health check actions were done automatically and an Excel Workbook was generated with status report of all applications.
 - **One Stop Shop Service Management**
A web application developed with ASP.Net, Bootstrap and SQL Server which used 'Windows Management Instrumentation' to list down all storage/service status of servers being monitored, highlighting stopped services or storage thresholds. You could also start/stop services from the web application.

Credit Suisse

06/2016 – 07/2016 | Pune, India

Intern

- Intern in automation testing team, worked on test case automation using Selenium and Hexawise.
- Got to learn testing concepts like test coverage and how we could leverage these tools to save time and manual effort by automating regression packs etc.

Education

Sardar Patel Institute of Technology

07/2014 – 07/2017 | Mumbai, India

Master of Computer Applications

Final CGPI : **8.21**/10

Activities and societies :

- Chairperson, ACE Committee
- Student Member, Entrepreneurship Cell

Usha Pravin Gandhi College of Management

07/2011 – 07/2014 | Mumbai, India

B.Sc. Information Technology

Final CGPA : **6.80**/8

Activities and societies :

- Mentorship program
- Guitarist, College music group

Skills

Ab Initio

● ● ● ● ●

Graph Development, Sandbox Setup, Multifile components, Web Components

.Net Framework

● ● ● ● ●

.Net Core, ASP.Net, EntityFramework, Web API, Windows Services, NUnit, SpecFlow

SQL Server

● ● ● ● ●

SQL Server 2012, SQL Server Integration Services

Oracle

● ● ● ● ●

DDL and DML operations, PL\SQL

Agile/Scrum Dev Tools

● ● ● ● ●

Git, Jira, Rally

Python

● ● ● ● ●

Django framework, Beautiful Soup

Java

● ● ● ● ●

Spring Framework, Gradle, JUnit

Web & Javascript

● ● ● ● ●

HTML5, CSS3, Javascript, Node.js

Publications

Efficient heart disease prediction system using optimization technique

08/02/2018

IEEE Xplore

This research paper focuses on developing a prediction algorithm with the help of data mining and an optimisation technique called Particle Swarm Optimisation technique. The results obtained show that Particle Swarm Data Mining Algorithms are competitive, not only with other evolutionary techniques but also with industry standard algorithms, and can be successfully applied to heart disease prediction.

Interests

Running

Sub 1 hour 10k finisher. Training for first half marathon.

Guitar

Was part of college music group, still continue playing as a hobby.

Tech/Gadgets

Always tinkering with new technology and gadgets with pet projects

Reading

Like reading novels about mystery, mythology, philosophy and history

Calligraphy

A hobby that helps me calm down and collect my thoughts.
